COMMENTS:

Darryl says: I'm moving fast this week but am agreeing with Darryl about his The Force MD'S comment from last week. He and I will get together soon about some of his other suggestions!

Tori says: October London is a breath of fresh air. That brother is way talented and I'm loving his tribute to the one and only Marvin Gaye. So today, a very nice fellow brought another one of his cds over here to WZZA, with five songs on it. There are lots of folks out there who have recorded some music (cuz y'all know we are over here in the "Hit Recording Capitol of the World". So we are thinking about bringing back something like 'Play it or Slay it', or "Pump it or Dump it", or "Use it or Lose it". We haven't settled on the name of this segment yet and I'm trying to figure out how to do it without hurting anybody's feelings if it turns out that singing ain't really their God given gift. Can't wait to see how it goes though. The cicadas are chirping like mad over here and flying into windshields and even your hair if you ain't careful. Love and Peace to the people, Tori.
